EDUCATION

J.B. Institute of Technology

Dehradun, Uttarakhand

Bachelor of Science in Computer Science

Aug. 2023 – Aug. 2027

- **Relevant Coursework:** Data Structures, Algorithms Analysis, Database Management, Software Methodology, Artificial Intelligence, Internet Technology

EXPERIENCE

Web Development Intern

June 2024 – July 2024

Unified Mentor

Gurugram, Haryana

- Developed an automated unit testing service using **Jest** and **Mocha** to reduce manual testing time and enhance bug tracking by running daily tests on in-development products.
- Built and maintained CI/CD pipelines using **JavaScript** and **TypeScript** for automated test result organization and build deployment, improving overall software quality assurance (QA).
- Implemented an end-to-end automated workflow that loads the latest build artifacts and test files, executes test suites, and generates structured reports to streamline **Continuous Integration (CI)** processes.
- Designed and delivered interactive test result dashboards using **ReactJS**, **HTML**, **JavaScript**, and **CSS**, enabling swift visualization of test outcomes and accelerating bug resolution.
- Collaborated within a cross-functional team in an **Agile** development environment, contributing to sprint planning and continuous delivery of features and improvements.

PROJECTS

Podcastr | *Next.js 14, TypeScript, Tailwind CSS, Convex, Framer Motion*

May 2024

- Engineered an AI-powered podcast platform enabling creators to generate diverse voiceovers from a single text input using **text-to-speech** and **multi-voice synthesis** technology.
- Built as a scalable **SaaS** web application with server-side rendering (SSR) via **Next.js 14**, optimizing performance, SEO, and cross-platform usability with responsive design.
- Integrated **Convex** for real-time backend data management and leveraged **Framer Motion** for seamless UI animations, enhancing overall user experience.

LiveDoc | *Next.js 14, TypeScript, Tailwind CSS, Liveblocks*

June 2024

- Developed a real-time collaborative document editing platform supporting simultaneous multi-user editing with zero-latency synchronization using **Liveblocks** WebSocket infrastructure.
- Implemented efficient **state management** and conflict resolution for concurrent edits, ensuring a seamless collaborative experience for large teams.
- Leveraged **Next.js 14** App Router and server components for optimized rendering, reducing Time-to-Interactive (TTI) and improving overall application performance.

Horizon – Online Banking Platform | *Next.js 14, TypeScript, Appwrite, Dwolla, Plaid*

July 2024

- Built a full-stack online banking platform enabling users to securely connect multiple financial accounts, monitor real-time transactions, and execute peer-to-peer transfers.
- Integrated **Plaid** for bank account linking, **Dwolla** for ACH payment processing, and **Appwrite** for secure backend authentication and database management.
- Prioritized security best practices including **JWT authentication**, input validation, and encrypted data transmission, delivering a responsive and accessible financial dashboard.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, C, HTML5, CSS3, SQL

Frontend: React.js, Next.js 14, Tailwind CSS, SASS, Framer Motion, Responsive Design

Backend & Databases: Node.js, Express.js, MongoDB, Appwrite, Convex, RESTful APIs

Cloud & DevOps: Vercel, CI/CD Pipelines, Cloud Integration, Continuous Deployment

Testing & QA: Jest, Mocha, Chai, Selenium, Automated Testing, Unit Testing, Integration Testing

Tools & Platforms: Git, GitHub, VS Code, WebStorm, Eclipse, Agile/Scrum, Plaid API, Dwolla API
